News from OHM and DRIIHM

CoDir - A new direction for the OHMi Tessekere

On October 1, 2022, Priscilla DUBOZ and Papa IBNOU NDIAYE appointed co-directors of OHMi Tessekere

CoDir - A new direction for the OHMi Tessekere

On October 1, 2022, Priscilla DUBOZ and Papa IBNOU NDIAYE appointed co-directors of OHMi Tessekere

CS - Redefining the Scientific Advisory Board role

Strengthening the CS >>>> Advice and support for OHMs

Responses to COS 2022

The main points of advice :

- Increase the frequency of DRIIHM/OHM meetings
- Importance of displaying a common dialectic between OHM and the DRIIHM

Increased number of OHM directors' committee meetings - Shorter but more regular

Creation of working groups made up of volunteer OHM directors, coordinators or researchers

WG1: OHM/DRIIHM concepts and positioning

WG2: Assessment, Interactions, Prospective (BIP 2) >>>> Symposium

WG3: Public outreach >>>> book

Call for Projects "Valuation and Publication"

- First period (April to May):
 - 23 projects submitted
 - Evaluation in June 2023
- Second submission (September to November)

Scientific or Mediation Events 2022-2023

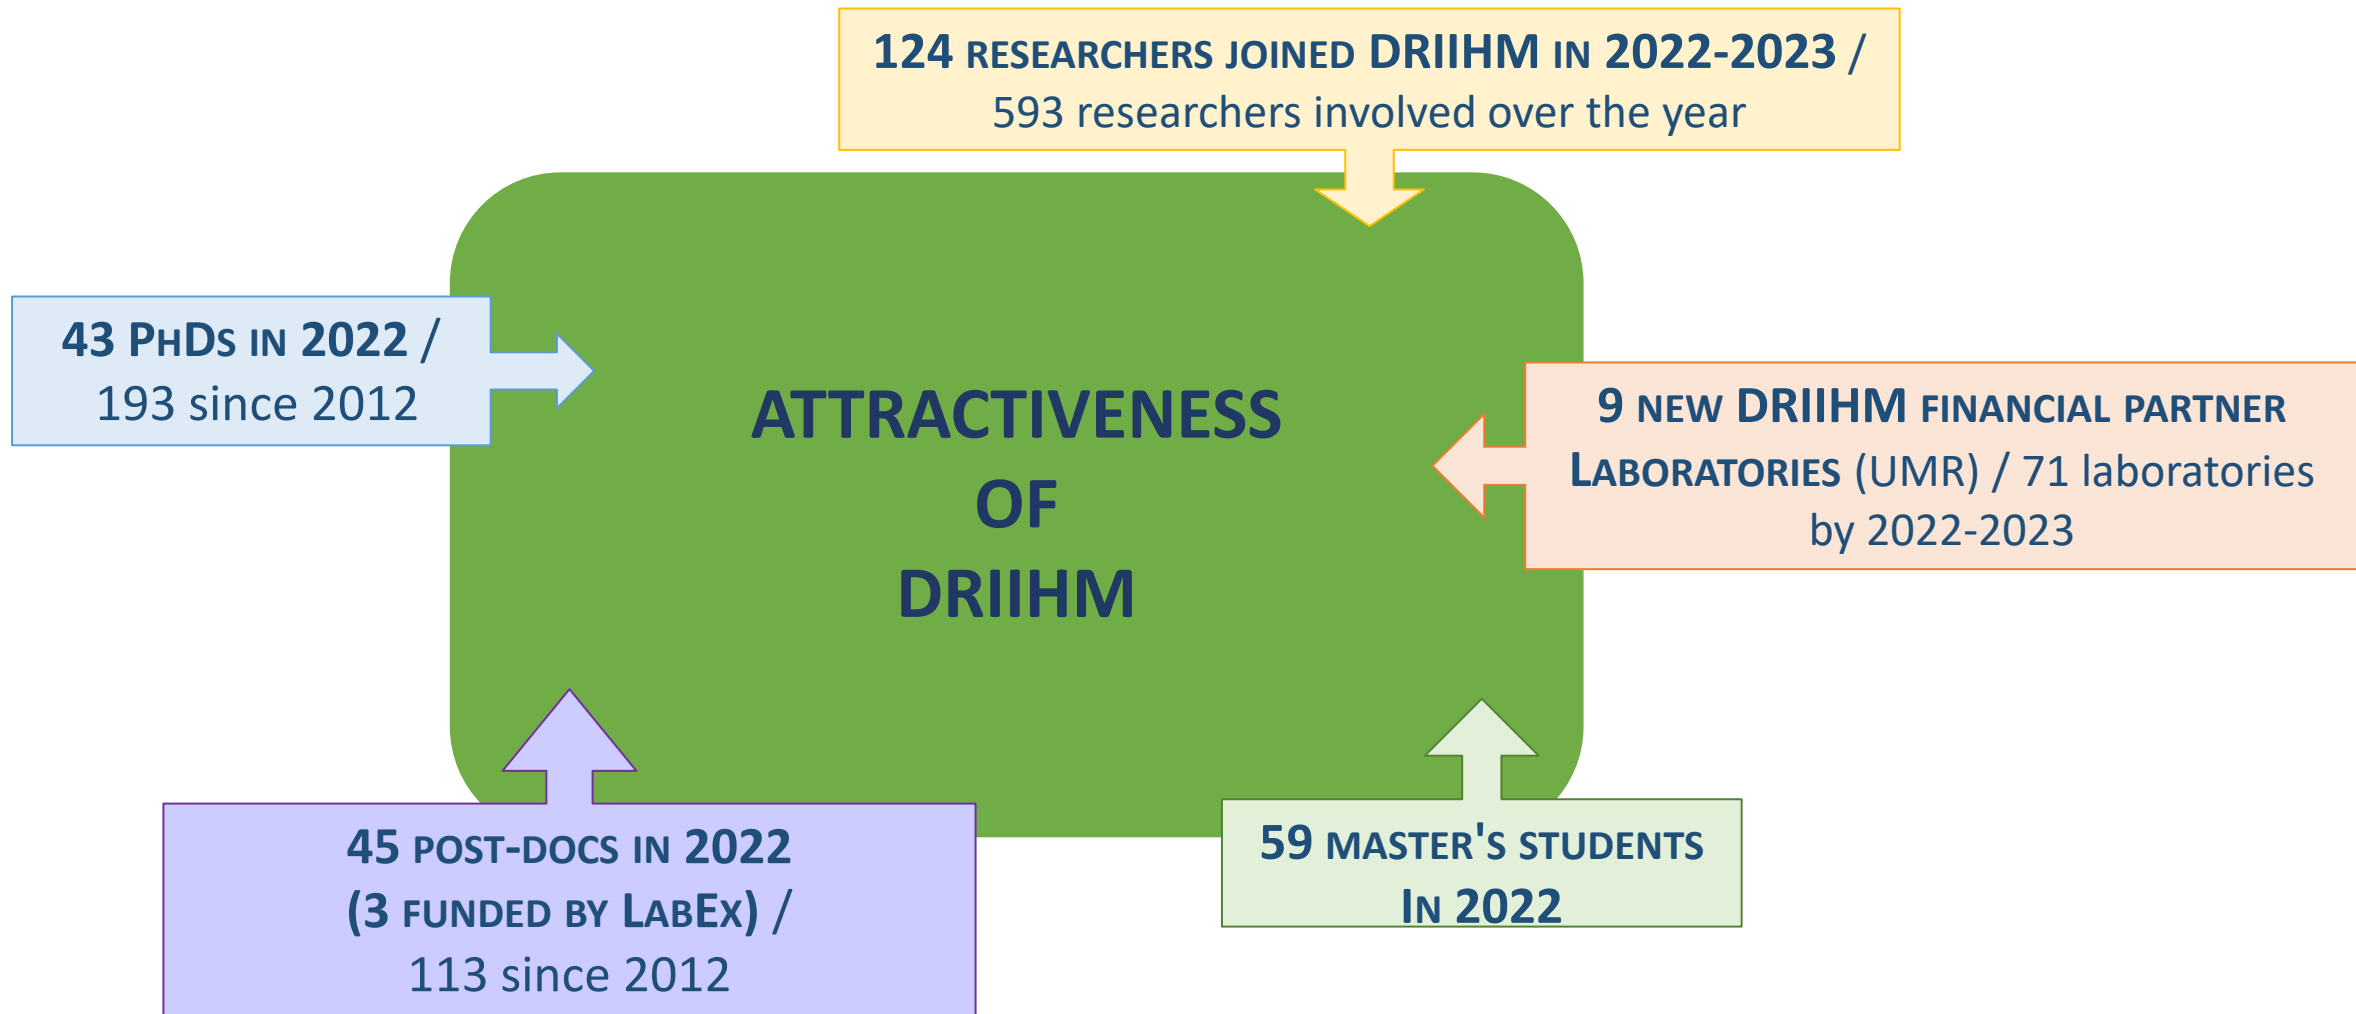

- 30 Scientific seminars
- 8 Seminars and meetings with stakeholders
- 16 Scientific mediation events + 9 ESD Project

1905 productions : HAL-DRIIHM collection including

- 657 Journal articles – 68 in 2022-2023
- 95 Book sections – 4 in 2022-2023
- 26 Books, Directions of work or proceedings – 1 in 2022-2023
- 735 Conference papers – 79 in 2022-2023
- 164 poster communications – 31 in 2022-2023

2022-2023 - KEY NUMBERS AND PROMOTION

News from OHM and DRIIHM

BIP: Review, interactions and prospects

1 BIP 1: Contaminants, Contaminate, Contamination - led by Robert Chenorkian and Corinne Pardo

Overall

- There has been a significant delay, partly due to some contributors, but also due to various RC' issues, again very recently. Our apologies.
- The editors of ISTE's Sciences, Ecology and Environment series (Françoise Gaill and Dominique Joly) have expressed their interest in publishing CCC, for which we are very grateful.

BIP: Review, interactions and prospects

1 BIP 1: Contaminants, Contaminate, Contamination - led by Robert Chenorkian and Corinne Pardo

Overall

- There has been a significant delay, partly due to some contributors, but also due to various RC issues, again very recently. Our apologies.
- The application for ISTE was submitted to the collection manager in May.
- The contributions will be grouped by OHM because of the logic of the site and its problematisation
- For each contribution, a chronosystemic frieze, based on the chronology of the research projects concerned, will illustrate the importance of the actual investment, its implementation over time and the functioning of interdisciplinarity on this occasion.

News from OHM and DRIIHM

BIP: Review, interactions and prospects

1

BIP 1: Contaminants, Contaminate, Contamination - led by Robert Chenorkian and Corinne Pardo

SUMMARY

I - Elements of description

Present the OHM-DRIIHM system, its basis and functioning, present the importance of the CCC theme in OHMs. To illustrate the diversity of the design

1. Functioning of the OHM - DRIIHM device: Interdisciplinarity and complexity. Chenorkian R.
2. Importance of the theme *Contaminants, Contaminate, Contaminations* in the OHM, via the research projects : quantitative and lexicographical study, Noack Y. & Pardo C.
3. Design of CCC (short, open text describing the reality of the contributions according to its perception).

BIP: Review, interactions and prospects

1 BIP 1: Contaminants, Contaminate, Contamination - led by Robert Chenorkian and Corinne Pardo

SUMMARY

II – Illustrations of research carried out in the OHMs on the theme Contaminants, Contaminer, Contaminations 2007-2022.

Out of 13 OHMs: 9 responded positively + 1 interOHM, total 22 contributions - This number could be reduced to 15

The contributions will be grouped by OHM, with a very brief presentation and positioning of the proposed contributions in the system, and then the contributions themselves.

BIP: Review, interactions and prospects

1

BIP 1: Contaminants, Contaminate, Contamination - led by Robert Chenorkian and Corinne Pardo

SUMMARY

III - Open Question: Research and Society?

Addressed by 4 examples concerning

- the experiences of BMP and Estarreja (see the presentations made in Nantes),
- Perspectives on research and conflicts: The role of science and information in resolving environmental conflicts (Fisher L., OHM Pima County),
- the POMOTERRI experience (Pollution, environmental mobilisation and industrialised territories: Fos sur Mer, Gardanne and the southern coast of Marseilles),
- Research-Society Interactions, What and How ? (an open text for reflection; Chenorkian R.)

Conclusion - discussion (Reviewing the contribution of the volume and discussing the key points and their positioning)

BIP: Review, interactions and prospects

1 BIP 1: Contaminants, Contaminate, Contamination - led by Robert Chenorkian and Corinne Pardo

- The whole will be framed by a preface (people to contact) and an afterword by Stéphane Blanc who has been contacted and has accepted.
- The entire text should be just over 300 pages long.

CALENDAR

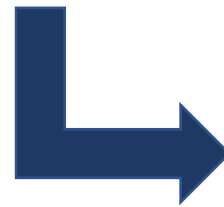

- All returns to authors will be made by the end of June.
- If there are any details, they should be sorted out by mid-September. The rest of the time will be spent on editing the book and the contributions.
- For uncertain contributions, everything should be concluded **by the end of July**.
- Everything will be finalised by 30 September.
- The manuscript is expected to be delivered in the 4th quarter of 2023.

BIP: Review, interactions and prospects

1

BIP 1: Contaminants, Contaminate, Contamination

BIP 2 : Selection of the theme “Biodiversity” – led by GT2

Thematic symposium

Paris, December 19 - 20, 2023

**Publication of proceedings in a
special issue of journal**

BIP: Review, interactions and prospects

1

Transversal program - led by Yves Noack

2

- Progress of the projects: Mid-term assessment of projects on March 3
- Recruitment of a post-doctoral researcher for the ENERGON project: JB Paranthoën

BIP: Review, interactions and prospects

1

Transversal program

2

Comptes Rendus de l'Académie des Sciences – Geoscience – led by F. Chabaux

3

- Special Issue – Only 4 articles submitted
- Last deadline: August 31, 2023

VALORISATION & TRANSVERSAL ACTIONS

BIP: Review, interactions and prospects

1

Transversal program

2

Comptes Rendus de l'Académie des Sciences – Geoscience

3

Transversal actions – led by Corinne Pardo

4

- ESD and Mediation

9 DEDICATED RESEARCH PROJECTS INCLUDING AN INTEROHM PROJECT

5 ASSOCIATED MASTER'S TRAINEES

+ 10 STUDENTS IN TUTORED PROJECTS

30 MEDIATION ACTIONS have been set up by OHM : talks by researchers in schools, a popular newsletter, booklets and interactive educational tools, a photographic exhibition...

CREATION OF TWO VIDEO SERIES: "Portraits d'OHM" and "Pour vous, c'est quoi?" available on DRIIHM's CanalU channel

MEDIATION: A KEY ROLE FOR OHM

**Renewal of the position of Scientific
Mediation Project Manager for 18 months
(July 1, 2023 - December 31, 2024)**

→ THREE-DAY THEMATIC SEMINAR IN JANUARY/FEBRUARY 2024

Organizing committee: Jean-Yves Lena, Raphael Chalmeau, Armelle Decaulne and Corinne Pardo

VALORISATION & TRANSVERSAL ACTIONS

BIP: Review, interactions and prospects

1

Transversal program

2

Comptes Rendus de l'Académie des Sciences – Geoscience

3

Transversal actions – led by Corinne Pardo

4

- ESD ans mediation
- DRIIHM Coffees 2022-2023
- **DataDRIIHM**

FACILITATE THE MAINTENANCE OF SHARED TOOLS

At DRIIHM level - Updating and restructuring of the geocatalogues in a GeoDRIIHM portal composed of OHM subportals: will facilitate maintenance

At the INEE level - Reflexion on the restructuring of the geocatalogs of the different INEE devices hosted at In2P3

ORGANIZE THE DATA POLICY

At the INEE level – Redaction of a common framework text for all INEE researchers or researchers involved in one of the INEE's devices + Addition of specific frameworks by device (OHM, ZA, AnaEE, Ecotron, SEEG...)

At DRIIHM level – based on the OHM charters and the DRIIHM consortium agreement

ORGANIZE THE COMMUNICATION ON OPEN SCIENCE

At the INEE level Creation of a page dedicated to Open Science on the InEE website + sharing of Open Science promotion and training materials

At DRIIHM level – via the SO-DRIIHM project + DRIIHM website + ORRSO (led by M-L Trémélo)
